

24th January 2020

Dear Parents / Carers,

As it is the beginning of a new year and a new decade, I thought it might be a pertinent time to mention the parking issues we face outside school every morning. Sadly, a number of parents park in a manner which restricts the view of other drivers when they come around the corner towards school. This is very dangerous, as is parking on the grass verge, particularly if families are trying to cross the road. Occasionally, cars are even parked in front of people's drives which is totally unacceptable.

A number of parents have reported their concern about inconsiderate parking, and I am afraid that an accident might occur which could so easily be avoided with a bit of thought for others. Please, put the safety of our children and parents at the top of your list when it comes to delivering your child to school.

I know only too well that KSA is not the only school with this issue and that there is insufficient parking across the city. However, Mr License and I have come up with a plan which might help. As you know, there is some on-site parking for children to be picked up or dropped off and we intend to also open the pedestrian gate from the car park (by the bike store) to provide an extra entrance. This gate will open and close at the same time as the current pedestrian gate and parents are still required to wait with their children until classes are taken inside by their teachers.

I hope that this will help to resolve the above issues and improve street and car parking use for all.

Yours sincerely,

Deborah Kenny
